

INDEPENDENT PHARMACY

How an Independent Pharmacy Passed Its DEA Audit With Zero Findings — at 30%+ Lower Cost

Zero findings

DEA audit

On-time

222 + COD, every order

30%+

Lower cost

1 THE CHALLENGE

An independent pharmacy was stuck with a provider that lagged on the paperwork that matters most — DEA Form 222 processing and Certificates of Destruction were slow, leaving the pharmacy exposed on its controlled-substance recordkeeping heading into an audit.

2 WHAT WE DID

We took over their controlled and RCRA-hazardous drug program — non-retrievable controlled-substance destruction with Form 222 and Form 41 handled correctly — and turned the documentation around on time, every order.

3 THE RESULT

They passed their DEA audit with zero findings, backed by an on-time paper trail on every order — and did it at more than 30% less than their prior provider.
