

## AMBULATORY SURGERY CENTER

## How a Surgery Center Consolidated 3 Vendors Into One Program — and Saved ~15–25%

**3 1**

Vendors consolidated

**~15–25%**

Cost savings

**Every stream**

One program

**1 THE CHALLENGE**

An ambulatory surgery center was juggling two to three separate vendors for its regulated waste — separate contracts, inconsistent paperwork, and no single chain-of-custody. Anesthesia controls made the documentation gaps especially risky.

**2 WHAT WE DID**

We consolidated every stream — sharps, biohazard, pharmaceutical, and DEA-compliant controlled-substance destruction — into one program with unified documentation and a Certificate of Destruction on every shipment.

**3 THE RESULT**

They replaced two to three vendors with one accountable partner and one clean paper trail — and trimmed disposal spend roughly 15–25% in the process.
